

MY CLASSROOM Electronic Test Paper ①
Primary 4 English

Name: _____

Class: _____

Score: _____

/50

A. Read the passage and answer the questions.

Blue Whales and White Dolphins

The blue whale is the largest sea animal. It is about 70 to 80 feet long and weighs more than 90,000 kilogrammes. It can be larger than a dinosaur. Its head is broad. It is like the letter 'U'. It eats 2 tons of fish every day. Usually it swims alone. Sometimes, it swims with 2 to 4 friends. It can make some sounds and can live until about 80 years old.

The white dolphin is one of the cleverest animals. It is about 1 to 2 metres long. It can weigh up to 250 kilogrammes. Its body is smooth. It has 3 meals a day and eats 10 kilogrammes of fish every day. It always swims next to boats. It likes swimming with many other dolphins. Sometimes, it makes sounds to talk to other dolphins. It can live for about 40 years.

Circle 'T' for true or 'F' for false. (20%@2%)

1. The blue whale's head is like an English letter. **T / F**
